DETAILED ACTION

Allowable Subject Matter

Claims 1-19 and 37-52 are allowed.

The following is an examiner's statement of reasons for allowance: None of the prior art, taken singly or in combination, teach or fairly suggest a fluid coupling comprising a body defining a fluid flow path having an inlet and an outlet, a valve located within the body and a gladhand movably mounted to the body between a stored position and a use position. As applicant has correctly stated in the amendment filed September 30, 2005, combination of the Berg reference (Patent No. 4,550,928) and the Chimera (Patent No. 5,348,043) would not result in the above cited claim limitations of the valve being disposed in the body, the body being separate from the gladhand which is movably mounted to the body.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

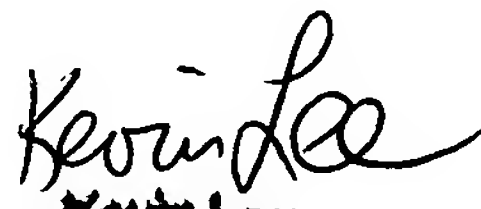

Any inquiry concerning this communication or earlier communications from the examiner should be directed to KEVIN L. LEE whose telephone number is (571) 272-4915. The examiner can normally be reached on MONDAY-THURSDAY.
